

## HTML Lab Assignment 5

11/02/2022

Write an HTML web page, which contains the following elements:

Math	English	Programming
90	60	80
80	86	98

Change The Table Width

Change The Border and the Spacing Width

Change The Table Color

1. A Table (3x3 cells) with two different background colors for <th> and <td>
2. Two buttons to control the width of the table (200px, 500 px)
3. Three buttons to control the border with and cell spacing of the table
4. Four buttons to control the background color of the table (will not affect the color of table headings)
5. A reset button to reset the style to the original.
6. Separate the JavaScript code from the html file and upload both files to github. (javascript in an external file)
